## Windsor Park Collection

The Windsor Park Collection is an exclusive range of imported bedroom and dining room furniture. This sophisticated design is predominately hand-made by skilled craftsmen and features an exceptionally rich finish and fine inlay details. High quality materials are used through-out with solid Birch mouldings complimented by Cherry wood veneer and darker Olive-wood inlays.

The Bedroom Suite has felt lined drawers, polished inside and out which run on metal ball-bearing, full-extension runners. The rich patina, the hand-carved details and brass handles combine to produce a suite of traditional elegance able to enhance any high-class interior.

The Windsor Park Dining Suite comprises an Extension Table extending from 2000mm to 2400mm and generously upholstered standard chairs or if required, carver chairs. A distinctive range of occasional furniture is available including coffee tables, lamp tables and display cabinets. These stunning display cabinets carry all the distinctive quality features inherent in this range and provide a dramatic backdrop to those collectibles.

*The hand made characteristics of this range means small imperfections and discrepancies are acceptable.*
