

A photograph of a dining room featuring a wooden table and chairs. The table is square with a thick top and curved legs. Six chairs with light-colored upholstered seats and backs are arranged around the table. On the table, there is a vase of white flowers and a stack of plates. The room has large arched windows in the background and a wooden sideboard on the right.

## Dining Collection

The Opera Dining Collection is made from New Zealand Rimu. This is a beautifully grained native timber which is highly valued for its grain and colour. Very small amounts are harvested each year which means New Zealand Rimu is becoming very exclusive and highly sought after.

*Opera 1200 Round Extension Table & Chairs*

A very slow growing tree that can grow up to 50m in height but most are 20 - 35m tall. Large trees can be up to 700 years old. Only milled on privately owned forest blocks in New Zealand on Sustainable Management Plans single trees are often extracted using Heli-Logging or by taking a portable mill into the Forest and milling on site. Minimal damage is done to the surrounding forest and more trees grow up to replace any that are removed.

New Zealand Rimu is truly a very beautiful, very rare timber unique to New Zealand.

This collection from Sorenmobler is an original design classic developed for the discerning consumer who requires attention to detail in a timeless hand crafted design.

Featuring solid New Zealand Rimu, the Opera Collection is manufactured in New Zealand to a timeless traditional design. New Zealand Rimu is a highly sort after decorative timber featuring a rich colour and attractive grain.

The Opera Collection makes extensive use of this timber with solid drawer fronts, tops, and moulded plinths. Where stability is an issue, such as in cabinet ends, Rimu Timber veneer is utilised and drawer bottoms and cabinet backs feature plywood for strength and rigidity.
