THE INSPIRATION

The Grado Dining range is a contemporary, modern design inspired by geometry and balance. The design is kept sleek and simple with solid timber tops and bevelled edge detailing. The angular base is made from plywood and is finely balanced with tapered intersecting angles.

RECLAIMED RIVER RIMU

River Rimu is timber salvaged from Rivers and Lake Beds in the West Coast of the South Island. These logs are the result of natural storms and weather patterns which caused trees to fall and be swept down the rivers.

The logs eventually became lodged in river beds where they have lain hidden for many years. Now many years later, these logs are being recovered with the help of boats and diggers. This salvaged timber displays unique characteristics from being submerged in water, featuring colours of slate and chocolate infused into the beautiful timber grain.
