### Timber Options

Havelock is available in Ash or Oak timber to suit any interior. American White Ash is a beautifully grained hardwood that is grown on the East Coast of the United States. Appreciated for its density, stability and attractive grain, White Ash is ideal for furniture construction and suited to both classic and contemporary styles.

American Oak is a highly sought after timber due to its natural honey tones and even grain. Oak is a very durable, hard wearing timber ideal for furniture construction.

## ABOUT SORENMOBLER

For three generations the Sorensen family has been creating quality, memorable furniture right here in New Zealand.

We're a family of builders, creators and makers, carrying the tradition of our forebears in Denmark in the 1800s, to our great grandfather's design and build company in Auckland, to today, now in our large workshop in Whanganui.

Buy from Sorenmobler and you buy furniture made from wood grown over many seasons and years. We're part of the "slow furniture" movement. When you buy from Sorenmobler, you're buying from a team of experienced New Zealand craftsmen. Each piece of furniture is quality checked at every stage of making. It's created to our exacting standards, cared for by each person in our team.

Each piece of Sorenmobler honours the past, is created in our present, and is built to last well into our future.
