## ABOUT NEW ZEALAND RIMU

New Zealand Rimu is a beautifully grained native timber which is highly valued for its grain and colour. Very small amounts are harvested each year which means New Zealand Rimu is becoming very exclusive and highly sought after.

Large trees can be up to 700 years old. Only milled on privately owned forest blocks in New Zealand on Sustainable Management Plans single trees are often extracted using Heli-Logging or by taking a portable mill into the Forest and milling on site. Minimal damage is done to the surrounding forest and more trees grow up to replace any that are removed. New Zealand Rimu is truly a very beautiful , very rare timber unique to New Zealand.

## ABOUT AMERICAN ASH

American White Ash is a beautifully grained hardwood that is grown on the East Coast of the United States. Appreciated for its density stability and attractive grain, White Ash is ideal for furniture construction and suited to both classic and contemporary styles.
